

Purpose of our Geography Curriculum:

A high-quality geography education should inspire in pupils a curiosity and fascination about the world and its people that will remain with them for the rest of their lives. Teaching should equip pupils with knowledge about **diverse places, people, resources** and **natural and human environments**, together with a deep understanding of the Earth's key **physical and human processes**. As pupils progress, their growing knowledge about the world should help them to deepen their understanding of the interaction between physical and human processes, and of the formation and use of **landscapes and environments**. Geographical knowledge, understanding and skills provide the frameworks and approaches that explain how the Earth's features at different scales are shaped, interconnected and change over time.

The national curriculum for geography aims to ensure that all pupils:

- develop contextual knowledge of the location of globally significant places – both terrestrial and marine – including their defining **physical and human characteristics** and how these provide a geographical context for understanding the actions of processes
- understand the processes that give rise to key **physical and human geographical features** of the world, how these are **interdependent** and how they bring about spatial variation and change over time
- are competent in the geographical skills needed to:
- **collect, analyse and communicate with a range of data** gathered through experiences of fieldwork that deepen their understanding of geographical processes
- interpret a range of **sources of geographical information**, including maps, diagrams, globes, aerial photographs and Geographical Information Systems (GIS)
- Communicate geographical information in a variety of ways, including through maps, numerical and quantitative skills and writing at length.

We want our children to use skills gained through geography confidently and confidently. Therefore mapping is incorporated across units of learning, revisited frequently in geography and other subject areas where links help children to make sense of the world. Children have access to a range of maps in their classroom to which they can refer throughout the year. We intend that children at Shoscombe develop a very strong sense of self and place and links are made in all units to ensure this is developed. We work closely with the local historical society of Shoscombe and English Heritage.

Shoscombe Church School: Geography Curriculum Progression

We have chosen 'threshold concepts' that run throughout our history curriculum. These help children to develop conceptual understanding over time and to link old learning to new learning. These concepts are:

We teach geography units over a 2-year rolling cycle of learning.

Cycle A (2019-2020)		Term 1	Term 2	Term 3	Term 4	Term 5	Term 6
Whole School Theme		Our Local History	Light Up!	A Night at the Museum	Mad Hatter!	Natural World	Location, location
Whole School Core Values		Creativity and Wonder	Respect	Aspiration	Joy	Empathy	Resilience
Key Events		Heritage Project Launch Harvest Festival School without walls Literature festival Sponsored walk Erasmus staff to UK Core Values Week	Whole school: Remembrance unit Christingle, Diwali, St Lucia, Christmas - nativity (Oak & Chestnut), carols for community (Beech & Sycamore) Y5/6 sleepover	London museum trip Y5/6 Speak Out No forest school this term Pancake races	Spring music concert World Book Day British science week Easter bonnets, egg hunt/walk Dance Umbrella Erasmus to Ireland	Make elderflower cordial (Shoscombe) SATS Erasmus to Barcelona	Phonics Art & Creativity Week Egg theatre (Y5/6) Y3/4 Poetry Salam Y6 Camp Pilgrim Day Sports Day Schools without walls
Year ½ Breadth of Study	History / Geography	Memory Box Significant people and places in our locality - mining	Seasonal and daily weather patterns / Hot and Cold areas of the world	Significant Victorians - Brunel		Simple map and basic fieldwork	Continents and Oceans
Year ¾ Breadth of Study	History / Geography	Romans	Compare and contrast Italy and Bath	Ancient Egyptians	Compare two European regions	Environmental regions - Antarctica	School Without Walls
Year ¾ Breadth of Study	History / Geography	Local History study – The Georgians in Bath and Bristol	The UK – compare and contrast 2 UK towns	Anglo Saxons and Vikings		Global Trade and Fair Trade	Rainforest / Brazil

Shoscombe Church School: Geography Curriculum Progression

Cycle B (2020-2021)		Term 1	Term 2	Term 3	Term 4	Term 5	Term 6
Whole School Theme		Our Local History	Around the World in 80 Days	A Night at the Museum	?	Blue Planet	Location, Location
Whole School Core Values		Creativity and Wonder	Respect	Aspiration	Joy	Empathy	Resilience
Key Events		Harvest Festival School without walls Literature festival Sponsored walk Core Values Week Hosting Erasmus	Whole school: Remembrance unit Egg Theatre (Y3/4), Christingle, Diwali, St Lucia, Christmas Y5/6 sleepover	London museum Y5/6 Speak Out No forest school this term Pancake races	Spring music concert World Book Day British science week Egg Rolling, egg hunt/walk Dance Umbrella	Make jam (allotment) SATS	Art & Creativity Week Egg theatre (Y5/6) Y3/4 Poetry Salam Y6 Camp Pilgrim Day Sports Day
Year ½ Breadth of Study	History / Geography	Memory Box Dinosaurs and Mary Anning	Local area and Hong Kong	The Great Fire of London		Local area and Australia	Our United Kingdom
Year ¾ Breadth of Study	History / Geography	Stone Age to Iron Age	In depth study - USA	Ancient Greeks		Rivers and Waterfalls around the world	Where in the world..? (maps)
Year ¾ Breadth of Study	History / Geography	Bath Blitz: World War II	Kenya – A Changing Country	Monarchy	Mayan Civilisation	Mountains and Water Cycle	Volcanoes and Earthquakes

	KS1	KS2
	Year 1 / Year 2	Year 3 / Year 4 Year 5 / Year 6
National Curriculum	<p>Pupils should develop knowledge about the world, the United Kingdom and their locality. They should understand basic subject-specific vocabulary relating to human and physical geography and begin to use geographical skills, including first-hand observation, to enhance their locational awareness. Pupils should be taught to:</p> <p>Locational knowledge</p> <ul style="list-style-type: none"> name and locate the world's 7 continents and 5 oceans name, locate and identify characteristics of the 4 countries and capital cities of the United Kingdom and its surrounding seas <p>Place knowledge</p> <ul style="list-style-type: none"> understand geographical similarities and 	<p>Pupils should extend their knowledge and understanding beyond the local area to include the United Kingdom and Europe, North and South America. This will include the location and characteristics of a range of the world's most significant human and physical features. They should develop their use of geographical knowledge, understanding and skills to enhance their locational and place knowledge.</p> <p>Pupils should be taught to:</p> <p>Locational knowledge</p> <ul style="list-style-type: none"> locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)

Shoscombe Church School: Geography Curriculum Progression

	<p>differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country</p> <p>Human and physical geography</p> <ul style="list-style-type: none">• identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles• use basic geographical vocabulary to refer to:<ul style="list-style-type: none">- key physical features, including: beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather- key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop <p>Geographical skills and fieldwork</p> <ul style="list-style-type: none">• use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at this key stage• use simple compass directions (north, south, east and west) and locational and directional language [for example, near and far, left and right], to describe the location of features and routes on a map• use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use and construct basic symbols in a key• use simple fieldwork and observational skills to study the geography of their school and its grounds and the key human and physical features of its surrounding environment	<p>Place knowledge</p> <ul style="list-style-type: none">• understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country, and a region in North or South America <p>Human and physical geography</p> <ul style="list-style-type: none">• describe and understand key aspects of:<ul style="list-style-type: none">• physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle• human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water <p>Geographical skills and fieldwork</p> <ul style="list-style-type: none">• use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied• use the 8 points of a compass, 4- and 6-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world• use fieldwork to observe, measure record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies
--	--	--

Shoscombe Church School: Geography Curriculum Progression

<p>Locational and Place Knowledge</p>	<p>That their home country is The United Kingdom that is a union of England, Wales, Scotland and Northern Ireland. They should identify the locations of those individual countries and some of the major cities, including their nearest city and the capital city, London.</p> <p>That the United Kingdom is a country which is part of the continent of Europe.</p> <p>The British Isles is surrounded by the North Sea, the Irish Sea, The English Channel and The Atlantic Ocean.</p> <p>The location of the North and South Poles and Equator. The location of their home town/village and the Island of Coll.</p> <p>Location of Hong Kong in the country of China in the continent of Asia. It is along the east coast of mainland China, and is bordered by mainland China. Know that China is East of the UK</p> <p>The difference between a continent, a country and a city, and urban and rural environment.</p>	<p>Location of poles and the Equator</p> <p>The location and names of the world's continents, oceans and largest seas.</p> <p>That Oceania is the continent and the location of the country Australia.</p> <p>That places may be described using terms such as continent, country, city and the nearest oceans or seas</p> <p>Discovering why people choose to settle in specific places and the geographical characteristics of Australia's coastal cities.</p> <p>(example) Sydney is the state capital of New South Wales and has a population of 4.3 million. It is the largest city in Australia. It is located on Australia's east coast. The city surrounds the world's largest natural harbour. Climate is temperate.</p>	<p>Our European Neighbours</p> <p>Focus on Europe: Locate Europe and European countries (including the location of Russia).</p> <p>Locate the main physical geography including rivers and mountains ranges in Europe.</p> <p>Locate the major cities and countries in the continent of Europe.</p> <p>Know the geographical location of the main rivers in the UK.</p> <p>Location of the longest rivers in the World and of Angel Falls in Venezuela</p>	<p>Antarctica's place on the Earth and on a map, position and significance of latitude and longitude.</p> <p>Antarctic ice types and fauna Polar Regions, Antarctica's size, makeup and surrounding oceans</p> <p>Location of London, Buenos Aires, South Georgia and Elephant Island.</p> <p>Location of the Mediterranean basin within Europe</p> <p>Geographical similarities and differences in locations within the Mediterranean.</p> <p>Location of Naples/ Pompeii and other major Italian Mediterranean / or other Mediterranean cities.</p> <p>Name and locate the main places in the USA, key physical and human characteristics. Describe and understand the population characteristics of different settlements in the USA and how this compares to their own locality</p> <p>Understanding the location of New York City, recognising key features and characteristics of the city.</p>	<p>Case studies of the USA/ UK and African country to demonstrate the impact of geography on what a country exports to other countries.</p> <p>To locate vegetation belts around the world.</p> <p>To identify the position and significance of latitude and longitude</p> <p>Tropical rainforests lie in the tropics (The part of the Earth's surface between the Tropic of Cancer and the Tropic of Capricorn); characterized by a hot climate.</p> <p>Location of the world's main tropical rainforests and their importance. The impact of deforestation.</p> <p>Name and locate the mountain ranges Himalayas, Rockies, Alps. Andes, highest peaks in the UK and in the world.</p> <p>Understand geographical similarities and differences through the study of the physical geography of a region of the United Kingdom (Snowdonia) and another mountain range (</p>	<p>Name and locate the main cities in Kenya, the climate and main topographical features.</p> <p>Know the main types of farming , industries and changes in the urban environment in UK over time</p> <p>Name and locate key topographical features of the UK including hills, mountains, coasts and rivers.</p> <p>Describe and understand key aspects of the physical geography including climate zones, weather patterns, vegetation belts, rivers and mountains in the UK.</p> <p>Name and locate UK cities and industrial land use and understand how these aspects have changed over time. Compare these to changes in the local area over time.</p> <p>Location of the Earth's plates and the Earth's main volcanoes, earthquake zones and areas of geothermal activity.</p>
--	--	--	--	---	--	---

Shoscombe Church School: Geography Curriculum Progression

					Andes and Himalayas)	
					Interpret a range of geographical information and communicate geographical information through maps.	
Human & Physical Geography	<p>Know the difference between a human and physical feature</p> <p>Identify some well-known physical and human landmarks in the UK- such as Big Ben, Snowdonia, Stonehenge</p> <p>Identify seasonal and daily weather patterns in the United Kingdom, compare 2 locations- including their own location</p> <p>Identify the location of hot and cold areas of the world in relation to the Equator and the North and South Poles</p> <p>Use basic geographical vocabulary to refer to local and familiar features:</p> <p>key physical features,: <i>forest, hill, bay, ocean, mountain, valley, vegetation, port, .</i></p> <p>key human features, including: <i>city, town,</i></p>	<p>Use basic geographical vocabulary to refer to a less familiar area.</p> <p>key physical features, including:</p> <p><i>Focusing on the four major landform regions of Australia, (island, plateau, lake, gorge, desert, mountain ranges).</i></p> <p><i>The three climate zones of Australia are: temperate, arid, and tropical. Describe the characteristics of these climates and their impact on human activity:</i></p> <p>key human features, including: <i>coast, city, factory, farm, house, office, port, harbour, Human geography of Australia's coastal cities (Population, nationalities, tourist attractions)...</i></p>	<p>Describe & understand key aspects of physical geography including climate zones, rivers & mountains in Europe.</p> <p>Describe and understand human geography including types of settlement and land use, economic activity including trade links, and the distribution of natural resources in Europe.</p> <p>Know types of settlement and land use, economic activity including trade links.</p> <p>In a case study of two European Countries, know their environmental regions, key physical and human characteristics, and major cities</p> <p>Physical geography including:</p> <p><i>Understanding of the water cycle, Knowledge of a river system, from its source, through the meanders of</i></p>	<p>Antarctica as a polar region, seasonal/geographical variations in time, different forms of land and terrain.</p> <p>Visual Identification of features of Antarctic geomorphology.</p> <p>Physical geography: <i>hot and cold climate zones and the influence of the earth's orbit on climate zones Antarctica's mountainous terrain, oceans and their effects, Interactions between physical geography and everyday life, physical features of Earth's orbit and its effects upon the weather..</i></p> <p>Interdependence of natural and human processes in the context of Europe</p> <p>Key aspects of physical geography in two contrasting Mediterranean locations including, <i>climate zones, biomes and vegetation belts, rivers, mountains fault lines.</i></p>	<p>Describe and understand key aspects of physical geography, including how natural resources and climate determine where our food comes from.</p> <p>Describe and understand key aspects of human geography, including how trade connects different countries and their populations, trade links, the role of workers in different countries along the supply chain and comparing the wealth and level of development of different countries.</p> <p>Describe and understand aspects of <i>physical geography of the UK that determines what we export.</i> Key aspects of human geography, including <i>the types of goods we export and trade links.</i></p> <p>Human geography: Describe and understand</p>	<p>Describe and understand key aspects of the human geography of the UK including the distribution of <i>farming types and traditional food products.</i></p> <p>Describe and understand key aspects of the physical geography of the UK <i>including climate zones and distribution of soils.</i></p> <p>Describe and understand key aspects of human geography including <i>types of settlement interdependence, economic activity, trade links and the distribution of natural resources including energy and minerals.</i></p> <p>Explain the location, growth and changes in <i>settlements (case study Blackpool and Birmingham).</i></p> <p>Describe and understand key aspects of human geography including <i>migration, multiculturalism</i></p>

Shoscombe Church School: Geography Curriculum Progression

	<p>village, factory, farm, house, apartment, port, business, office, factory, transport.</p>		<p>flatter land, to the estuary and its mouth. Understand the process of flooding and why and how rivers breach their banks. Know the causes and consequences of flooding. Understand how the use of the River Thames has changed over time, Understand more about the physical and human geography of waterfalls (Angel Falls, Niagara)</p> <p>Human geography, including: trade, farming, export, import, ports, economy, business, city, districts...</p>	<p>Types of settlement and land use in the region, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water. Link to history- Romans and Pompeii (Naples) and Greek history (Athens)</p> <p>Describe and understand the location and formation of key physical features of the landscape in the USA including the Grand Canyon.</p> <p>Investigation of different physical features and processes related to climate.</p> <p>Understand the impact of the environment on humans, particularly drought and floods.</p> <p>Knowledge of the impact of physical features and processes on agricultural production.</p> <p>Human geography: Understanding of the different factors that affect farming livelihoods in the USA.</p>	<p>key aspects of human geography, including Fairtrade, and how global trade affects the lives of workers in less economically developed countries.</p> <p>Describe and understand key aspects of human geography, including level of development, education, skills and industry.</p> <p>Physical geography climate zones, biomes and vegetation belts, rainforest regions, name, locate, describe and understand key topographical features and aspects of physical geography of tropical rainforests in Brazil and land-use patterns and understand how some of these aspects have changed over time.</p> <p>Understand key aspects of physical geography, how mountains are formed, types of mountains</p>	<p>and ethnicity.</p> <p>Describe and understand key aspects of physical geography, including earthquakes and volcanoes.</p> <p>Describe and understand key aspects of human geography, including types of settlement and land use, economic activity... and the distribution of natural resources including energy, food, and minerals in earthquake zones.</p> <p>Describe and understand how tourism and urbanisation have changed life in Kenya.</p> <p>Describe and understand how climate change has changed life in Kenya in the Maasai.</p> <p>Describe and understand key aspects of human geography, including types of settlement and land use, economic activity and the distribution of natural resources, education, skills and migration to urban areas in Kenya</p>
--	--	--	---	---	--	---

Shoscombe Church School: Geography Curriculum Progression

<p>Interpretation, communication and investigations</p>	<p>Use world maps, atlases and globes to identify the United Kingdom and its countries.</p> <p>Understand basic symbols on weather maps and interpret simple information about weather, such as rainfall.</p> <p>Use maps, atlas and globe to locate Hong Kong. Use photographs to deduce human and physical features.</p> <p>Use simple compass directions (North, South, East and West) and locational and directional language [for example, near and far; left and right], to describe the location of places and routes on a map. Label a route on a map of the world.</p>	<p>Use maps, atlases and data on weather to describe climate, location and features</p> <p>Know the 4 points of a compass and 2 figure grid references.</p> <p>Use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features.</p> <p>Use simple fieldwork and observational skills to study the geography of their school and its grounds and the key human and physical features of its surrounding environment.</p> <p>Devise a simple map; and use and construct basic symbols in a key. Move onto location language.</p>	<p>Use maps, atlases, globes and digital/computer mapping (Google Earth) to locate countries and describe features studied.</p> <p>Learn the eight points of the compass, 2 figure grid reference some basic symbols and key (including the use of a simplified Ordnance Survey maps) to build their knowledge of the local rivers.</p> <p>Use fieldwork to observe and record rivers in the local area using a range of methods, including sketch maps, plans and graphs.</p> <p>Analyse and compare images/maps and give views on their effectiveness.</p>	<p>Use maps, atlases, globes and digital/computer mapping (Google Earth) to locate countries and describe features studied.</p> <p>Geographical Skills and fieldwork: Longitude and Latitude and visual understanding of Polar Landscapes via photographic analysis.</p> <p>Mapping, graphing and data presentation, 4-figure grid references.</p> <p>Using different secondary data sources for geographical investigation.</p> <p>Interpreting climate graphs to understand population changes and climate across the USA.</p> <p>Analysis of historical maps to examine urban change in New York.</p>	<p>Use atlases, globes (and digital/computer mapping) to locate countries and calculate the distance travelled by products using map scales.</p> <p>Interpreting data related to global trade in table and graph form, and draw conclusions on the data on Fairtrade and non-Fairtrade products.</p> <p>Use maps, atlases, globes and digital/computer mapping (Google Earth) to locate countries and describe features studied.</p> <p>Interpret a range of geographical information and communicate geographical information through maps. Extend to 6 figure grid references.</p>	<p>Use maps, atlases, globes and digital/computer mapping (Google Earth) to locate countries and describe features studied.</p> <p>Six figure grid references with teaching of <i>latitude and longitude</i> in depth and build their knowledge of the wider world.</p> <p>Use of maps, atlases, compasses, aerial photographs; observational and questioning skills; fluency in geographical enquiry (data collection, interpretation, presentation, analysis); understanding of interdependence and contemporary issues in society and the environment.</p>
--	---	--	--	--	--	---

Shoscombe Church School: Geography Curriculum Progression

<p>Threshold Concepts (schema) and composite knowledge</p>	<p>Location-</p> <p>The location of England, Scotland, Wales, N Ireland, the names of capital cities, the English channel, North and Irish seas, capital cities in the UK. Location within continent of Europe</p> <p>Location of Hong Kong and the continent of Asia</p> <p>Location of the Earth's poles and equator</p> <p>The 4 points of the compass.</p> <p>Human features:</p> <p>The definition of a human feature and the meaning of : urban, city, town, village, factory, farm, house, flat, office, port, harbour and shop, transport</p> <p>Location of the main human landmarks in the UK: Stonehenge, the London Eye, Houses of Parliament, Edinburgh Castle. Comparison of human features of Hong Kong, city, town, transport, homes, port</p> <p>Physical features:</p> <p>key physical features of the UK , islands, beaches, cliffs , coasts , cliffs,</p>	<p>Location</p> <p>Pupils know and can name the world's continents and oceans. Location of Australia in the Southern Hemisphere/</p> <p>Australia's location in relation to its surrounding countries, continents and oceans. The main landform regions of Australia, namely desert, coastal areas, grasslands and plateau. Location of the Equator and tropics. Location of the tropics Location of world climate zones. Pupils locate Australia's largest cities and most populated areas</p> <p>Human features</p> <p>The growth of population in Australia's cities. The reasons for settlement in coastal areas and the types of homes built in densely populated areas. Compare human features with own location.</p> <p>Physical features</p> <p>Key features of Australia's landform regions: plateau, lake, gorge, desert, mountain ranges.</p> <p>Climate</p> <p>Concept of climate, climate zones, hot and cold places and tropical climates.</p>	<p>Location</p> <p>Locate Europe's countries and capitals. Locate the world climate zones and Europe's position within them. Locate the Alpine region, River Volga, Rhine, River Thames. Know the location of Mt Etna and Vesuvius, Mediterranean Sea, Pyrenees.</p> <p>Location of the world's longest rivers, the River Severn and the Thames in the UK. Location of the Angel Falls in Venezuela</p> <p>Human features</p> <p>Key landmarks of Europe. The population of Europe's largest capital cities. The main traded goods of the UK and other European country. Understand terms import and export.</p> <p>Humans have used/adapted rivers for energy, water, transportation (trade and leisure) and tourism.</p> <p>Physical features</p> <p>Understand the term topography. Know what rivers, lakes, mountains and volcanoes are; know the definition of a mountain range and a biome. Know</p>	<p>Location</p> <p>South Pole. Antarctica. Antarctic Circle. Southern Ocean.</p> <p>Major cities, largest lake, longest river, highest mountain in the US. Mountain ranges and neighbouring countries.</p> <p>Location of the region around Athens and/or Naples/Pompeii, from global to local</p> <p>Human features</p> <p>Global warming.</p> <p>Land use, urban development and population density.</p> <p>The distribution of population towards coastal states and in cities in the US.</p> <p>Intensive farming in the Midwest US states.</p> <p>The impact of human processes of tourism, migration and agriculture impact on the Mediterranean regions. Compare to own locality.</p> <p>Physical features</p> <p>Ice shelves, glaciers and icebergs. The mountainous environment of Antarctica and its size and depth.</p> <p>The impact of physical geography volcanoes, earthquakes and mountains of</p>	<p>Location</p> <p>Location of the world's rainforests and the location of the Amazon Rainforest within South America</p> <p>Know where the tropics are in relation to the Equator, Tropic of Cancer and Tropic of Capricorn.</p> <p>Location of the World's tectonic plates Location of world's main mountain ranges and those in the UK. Location of the Himalayas in Asia and Nepal.</p> <p>Location of the world's developed and developing countries Location of Liberia as a case study</p> <p>Human features</p> <p>Logging, deforestation. Population increase and agriculture in the rainforest</p> <p>Terracing in the mountain valleys of Nepal.</p> <p>Trade, primary, secondary and tertiary industry. Local and global trade technology, transport and communications import and export Developed and developing countries</p>	<p>Location</p> <p>Location of Kenya and the Masai Mara reserve.</p> <p>Location of worlds' tectonic plates, fault lines, concentration of volcanoes. Location of the "Ring of Fire", Vesuvius and the San Andreas fault.</p> <p>Location of the UK's major cities and towns, population distribution, major transport hubs, rail and road routes. Location of main agricultural regions of the UK and their produce. Location of the UK's mountain ranges and largest rivers.</p> <p>Human features</p> <p>Tourism and mass urbanisation have changed life in Kenya. Spread of the city of Nairobi and land use in cities.</p> <p>Population and population distribution of the UK and local area. Settlement, land use, trade and economic activity in local area and contrasting locality in the North/ Midlands. Shifts from primary and secondary industries to tertiary and changes in land use. Changes over time in industry and land use in</p>
---	---	---	--	---	---	---

Shoscombe Church School: Geography Curriculum Progression

	<p>beaches, forests, hills, lakes and mountains ,seas, rivers,</p> <p>Physical features of Hong Kong's Islands: harbours, villages, forests, beaches and mountains.</p> <p>Climate</p> <p>The weather as the conditions of the atmosphere, including temperature, wind and rain. The seasons of the Northern Hemisphere and how they affect the weather</p> <p>Maps, data and information</p> <p>Compass points NSEW on a world map. Recognise transport links in a city centre map . Recognise the meaning of weather symbols. Interpret rainfall charts and log weather conditions</p>	<p>Three climate zones in Australia: arid, temperate, and tropical Causes of extreme weather events of bushfires, cyclones and drought. The impact of climate on where people live and everyday life in Australia.</p> <p>Maps, data and information</p> <p>Use globes, atlases and google earth. Identify and label the continents, oceans and climate zones on a world map. Label land regions, main cities and physical features on a map of Australia. Know grid references and scales on a map. Know the main OS map symbols relating to the local area.</p>	<p>what a glacier is.</p> <p>Environments</p> <p>Understand the term Biome and the particular topography, climate, and ecosystems of the Alpine region. Alpine plans have adapted and the ecosystem is unique</p> <p>Climate</p> <p>Europe is in the temperate climate zone, but weather varies. Alpine climates are colder, with snow in winter and colder temperatures at higher altitudes.</p> <p>Physical processes</p> <p>The formation and movement of glaciers, and impact of glaciation.</p> <p>Water cycle.</p> <p>Stages of a river. Erosion, transportation, deposition.</p> <p>Interdependence</p> <p>Know the human impact that flooding has and the negative impact of pollution on rivers.</p> <p>Know how river is used for washing, fishing and irrigation on the River Zambezi.</p>	<p>the Meditternean region and the impact of the sea on Athens and Naples.</p> <p>Environments</p> <p>Antarctica as a biome and the bird and sea life of the continent</p> <p>The Grand Canyon as a desert biome.</p> <p>Climate</p> <p>Antarctica is a frozen desert with very low precipitation.</p> <p>Climate zones in the US vary with latitude and longitude, from subtropical to sub-polar</p> <p>Physical processes</p> <p>The formation of glaciers, ice shelves and icebergs in Antarctica.</p> <p>The formation of the Grand Canyon. The definition of hurricanes and droughts</p> <p>Interdependence</p> <p>The importance of Antarctica in providing a habitat for sea life and birds, and regulating the Earth's temperature.</p> <p>The impact of droughts and flooding on farming. The human impact of hurricanes.</p> <p>Resources:</p>	<p>Physical features</p> <p>The structure of the rainforest.</p> <p>The structure of a mountain and mountain range , summit, slope, valley ,altitude</p> <p>The natural resources of countries determine the types of exports and imports.</p> <p>Environments</p> <p>Know that rainforests are biomes. Some are temperate, others are tropical.</p> <p>Climate</p> <p>Tropical rainforests are located in the tropics, i.e. close to the Equator.</p> <p>Mountain climate cold and higher altitude means less oxygen</p> <p>Physical processes</p> <p>Water cycle and rainfall in the rainforest</p> <p>The structure of the world's tectonic plates The formation of fold, dome fault-block, volcano Formation of glaciers and avalanches.</p>	<p>local area</p> <p>migration, multiculturalism and ethnicity in the UK</p> <p>Farming types, arable, dairy, market and hill sheep farming and main produce of the UK's regions</p> <p>Home building in earthquake and volcano zones, infrastructure, agriculture.</p> <p>Physical features</p> <p>Features of the African savannah</p> <p>Topographical features of the UK, rivers, mountains, coasts</p> <p>Main vegetation belts of the UK, moorlands, forests</p> <p>Relief and soil zones of the UK</p> <p>Fault lines, tectonic plates, volcanic and seismic activity.</p> <p>Savannah in Kenya , a grassland with few trees</p> <p>Environments</p> <p>The Masai Marae ecosystem with one of the largest annual animal migrations</p> <p>The ecosystem of British</p>

					6 figure grid references, and OS Map symbols to investigate Snowdonia	environments in the UK Sources of energy, renewable energy , wind, solar, nuclear, fossil fuels Maps, data and information Understand 6 figure grid references, scales and 8 figure compass points. Interpret line graphs, aerial photographs
Conceptual Vocabulary	Human feature, physical feature, rural, urban, Weather, seasons, axis, sun, temperature, rainfall, wind. North, South, West, East Country, continent, city, equator, North Pole. South Pole, island, forest, harbour, mountain, port, vegetation capital, cliff, coast, landmark, North, South	Names of continents and five oceans. Compass points North, South, East and West. Arid, Bush fire, Coastal, Cyclone, . City, Climate, Desert, Drought Equator, Gorge: Hemisphere: Landmark, Latitude Mountain range, Plateau: Population Grid reference, scale aerial	Capital city, country, hemisphere, continent, country, city, equator, North Pole. South Pole. Source, drainage basin, upper, middle, lower course, channel, tributary, erosion, transportation, deposition, meander oxbow lake, floodplain, mouth, estuary, delta, dam, weir, hydro-electric dams, precipitation, through flow, irrigation, Settlement, land use, trade, tourism, transport, natural resources, tourism. Weather, climate, climate zones, alpine, climate change, global warming, vegetation belt, topography, import, export. Weather, climate, biome, habitat, grid reference.	Poles, ice, shelf, glacier, tributary glacier, time zone, climate change. Sea, continent, region. Biome, canyon, climate, delta, drought, geology, latitude, longitude, population density, population distribution, climate. Erosion, flood plain, gorge, canyon, latitude, mountain, mountain range, plateau. Latitude, longitude, mountain, mountain range, plateau, population density, population distribution. Trade, industry, agriculture, tourism,	Tropics, latitude, longitude, habitat, deforestation, emergent, canopy, shrub layer. Trade, import, export, developed, developing country, global, local, communication, transportation, primary, secondary, tertiary industry, supply chain Landscape, altitude, peak, ridge, glacier, moraine, fold, fault, dome, mountain, plate, convergence, water cycle	Urban, rural, crops, import, export, primary secondary tertiary industry, Migration, climate, rocks, relief and soils, trade, topography, physical and human, ethnic diversity, population, transport, network. Equator, industries, crops, primary and secondary industry, climatic area, urban, migration, environmental footprint, sustainable, development. Plate tectonics, plate boundaries, Transform plate boundary Dormant Active, extinct Magma Focus, epicentre Magnitude

Shoscombe Church School: Geography Curriculum Progression

<p>Milestones- Composite Outcomes</p>	<p>To investigate places:</p> <ul style="list-style-type: none"> • Ask and answer geographical questions (such as: What is this place? What or who will I see in this place? What do people do in this place?). • Identify the key features of a location in order to say whether it is a city, town, village, coastal or rural area. • Use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied. • Use simple fieldwork and observational skills to study the geography of the school and the key human and physical features of its surrounding environment. • Use aerial images and plan perspectives to recognise landmarks and basic physical features. • Name, locate and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas. • Name and locate the world’s continents and oceans. 	<p>To investigate places:</p> <ul style="list-style-type: none"> • Ask and answer geographical questions about the physical and human characteristics of a location. • Explain own views about locations, giving reasons. • Use maps, atlases, globes and digital/computer mapping to locate countries and describe features. • Use fieldwork to observe and record the human and physical features in the local area using a range of methods including sketch maps, plans and graphs and digital technologies. • Use a range of resources to identify the key physical and human features of a location. • Name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, including hills, mountains, cities, rivers, key topographical features and land-use patterns; and understand how some of these aspects have changed over time. • Name and locate the countries of Europe and identify their main physical and human characteristics. 	<p>To investigate places:</p> <ul style="list-style-type: none"> • Collect and analyse statistics and other information in order to draw clear conclusions about locations. • Identify and describe how the physical features affect the human activity within a location. • Use a range of geographical resources to give detailed descriptions and opinions of the characteristic features of a location. • Use different types of fieldwork sampling (random and systematic) to observe, measure and record the human and physical features in the local area. Record the results in a range of ways. • Analyse and give views on the effectiveness of different geographical representations of a location (such as aerial images compared with maps and topological maps - as in London’s Tube map). • Name and locate some of the countries and cities of the world and their identifying human and physical characteristics, including hills, mountains, rivers, key topographical features and land-use patterns; and understand how some of these aspects have changed over time. • Name and locate the countries of North and South America and identify their main physical and human characteristics.

Shoscombe Church School: Geography Curriculum Progression

	<p>To investigate patterns:</p> <ul style="list-style-type: none"> • Understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom and of a contrasting non-European country. • Identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles. • Identify land use around the school. 	<p>To investigate patterns:</p> <ul style="list-style-type: none"> • Name and locate the Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle and date time zones. Describe some of the characteristics of these geographical areas. • Describe geographical similarities and differences between countries. • Describe how the locality of the school has changed over time. 	<p>To investigate patterns:</p> <ul style="list-style-type: none"> • Identify and describe the geographical significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, and time zones (including day and night). • Understand some of the reasons for geographical similarities and differences between countries. • Describe how locations around the world are changing and explain some of the reasons for change. • Describe geographical diversity across the world. • Describe how countries and geographical regions are interconnected and interdependent.
	<p>To communicate geographically:</p> <ul style="list-style-type: none"> • Use basic geographical vocabulary to refer to: • key physical features, including: beach, coast, forest, hills, mountains, oceans, rivers, soil, valley, vegetation and weather. • key human features, including: city, town, village, factory, farm, house, office and shop. • Use compass directions (north, south, east and west) and locational language (e.g. near and far) to describe the location of features and routes on a map. • Devise a simple map; and use and construct basic symbols in a key. Use simple grid references (A1, B1). 	<p>To communicate geographically:</p> <ul style="list-style-type: none"> • Describe key aspects of: • physical geography, including: rivers, mountains, volcanoes and earthquakes and the water cycle. • human geography, including: settlements and land use. • Use the eight points of the compass, four-figure grid references, symbols and key to communicate knowledge of the United Kingdom and the wider world. 	<p>To communicate geographically:</p> <ul style="list-style-type: none"> • Describe and understand key aspects of: • physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes and the water cycle. • human geography, including: settlements, land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals, and water supplies. • Use the eight points of the compass, four-figure grid references, symbols and a key (that uses standard Ordnance Survey symbols) to communicate knowledge of the United Kingdom and the world. • Create maps of locations identifying patterns (such as: land use, climate zones, population densities, height of land).

Shoscombe Church School: Geography Curriculum Progression

Proof of Progress (POP tasks)

We recognise that the purpose of assessment is to identify where there is under or over provision for learners so that any problem can be addressed promptly. Therefore teachers have a clear understanding of the expectations for their year group and the relevant milestone; know what good learning looks like on a daily basis and over time; and know that it is their understanding of **how** a pupil completes a task or activity enables the pupil to clearly demonstrate what they have learned and their depth of learning.

Teachers complete ongoing informal assessments on children's learning that help them to identify gaps in learning which can be addressed promptly. These may be in the form of careful questioning, recall quizzes, mind maps or other assessment for learning tasks.

Within and often towards the end of a unit of learning, teachers will select a high quality task that will enable all pupils to demonstrate what they have learned in the unit. This task will be inclusive and not be solely dependent on a pupils' ability to read or write. These are called POP tasks. It is expected that over time, how well a pupil approaches these POP tasks will evidence for the teacher the depth of a pupils' knowledge and understanding in geography. This evidence will be found in pupils' books.

Impact

By the end of each key stage, pupils are expected to know, apply and understand the knowledge, skills and processes specified in the relevant programme of study. We use our POP tasks over the course of the milestone period to determine children's understanding and inform future planning. This is reviewed on a termly basis by the subject leader who also carries out regular learning walks, book scrutinies and lesson observations.
