

Midsomer Norton Schools Partnership

Issued: September 2021
Review: Term 1 annually
LST: TGI/RNO

RELATIONSHIPS AND SEX EDUCATION (RSE) POLICY

The Midsomer Norton Schools' Partnership (MNSP) Trust are obliged by law to produce a Relationships and Relationships and Sex policy.

This must:

- Define Relationships and Relationships and Sex education;
- Describe how Relationships and Sex education is provided and who is responsible for providing it;
- Say how Relationships and Sex education is monitored and evaluated;
- Include information about parents' right to withdraw; and
- Be reviewed regularly

As a Trust we believe that all children and young people have a fundamental right to high quality and comprehensive relationships and sex education which promotes good sexual health and equal and enjoyable relationships.

From September 2020 all secondary schools in England are required to teach Relationships and Sex Education. All Primary schools in England are required to teach Relationships Education. It is also recommended that all primary schools have a programme of sex education tailored to the needs of their pupils. For most primary schools, Relationships, Health and Sex Education is taught within a well-structured PSHE programme. Each individual school will choose their approach to teaching PSHE and will choose a programme to meet the needs of their school. The MNSP Trust has a suggested Long Term Overview, based on the PSHE Association Scheme of Work, which some schools may adopt. Some schools use Jigsaw. Overviews of each school's chosen PSHE programme ([Appendix 1](#)), including details of how this programme meets the statutory requirements for RSE will be found on the school's website.

Definition of Relationships Education

Relationships Education is teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships and relationships with other children and adults.

Relationships Education should:

- Include being taught what a relationship is, what friendship is, what family means and who the people are that can support them.
- Build on early education and ensure children are taught how to take turns, how to treat each other with kindness, consideration and respect, the importance of honesty and truthfulness, permission seeking and giving and the concept of personal privacy.
- Teach about establishing personal space and boundaries, showing respect and understanding the differences between appropriate and inappropriate or unsafe physical and other, contact- these are the forerunners of teaching about consent, which takes place at secondary.
- Ensure the principles of positive relationships also apply online.
- Be inclusive in terms of different families and reflect sensitively that some young children may have a different structure of support around them
- Create an opportunity to enable pupils to be taught about positive emotional and mental wellbeing.
- Ensure pupils know how to report concerns and seek advice when they suspect or know something is wrong

Definition of Sex and Relationship Education (RSE)

Relationships and sex education (RSE) is learning about the emotional, social and physical aspects of growing up, relationships, sex, human sexuality and sexual health. It should equip children and young people with the information, skills

and positive values to have safe, fulfilling relationships, to enjoy their sexuality and to take responsibility for their sexual health and well-being.

RSE should:

- Be accurate and factual, covering a comprehensive range of information about sex, relationships, the law and sexual health, in order to make informed choices. In schools this should be part of compulsory curriculum provision;
- Be positively inclusive in terms of gender, sexual orientation, disability, ethnicity, culture, age, religion or belief or other life-experience particularly HIV status and pregnancy;
- Include the development of skills to support healthy and safe relationships and ensure good communication about these issues;
- Promote a critical awareness of the different attitudes and views on sex and relationships within society such as peer norms and those portrayed in the media;
- Provide opportunities for reflection in order to nurture personal values based on mutual respect and care;
- Be part of lifelong learning, starting early in childhood and continuing throughout life. It should reflect the age and level of the learner;
- Ensure children and young people are clearly informed of their rights such as how they can access confidential advice and health services within the boundaries of safeguarding;
- Be relevant and meet the needs of children and young people, and actively involve them as participants, advocates and evaluators in developing good quality provision;
- Be delivered by competent and confident educators;
- Be provided within a learning environment which is safe for the children, young people and adults involved and based on the principle that prejudice, discrimination and bullying are harmful and unacceptable.

In Church Schools

We recognise that our church schools, must teach RSE within the SIAMs (Statutory Inspection of Anglican and Methodist Schools) framework of dignity and respect. We want young people to flourish and to gain every opportunity to live fulfilled lives. RSE is about the emotional, social and physical aspects of growing up, healthy relationships, sex, human sexuality and sexual health. It is also about the spiritual and moral aspects of relationships within a context of a Christian vision for the purpose of life.

As such in Church of England Schools, Relationships, Sex and Health Education lessons will help pupils in exploring the foundational ethic of "Love your neighbour as yourself" (Mark 12.31). Pupils will have considered how to ensure that they treat themselves and others, at all times and in all contexts, with dignity and respect.

In our church schools our Christian visions and values shape all that we do, including our approach to RSE teaching.

The Law

The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019, make under section 34 and 35 of the Children and Social Work Act 2017, make Relationships Education compulsory for all pupils receiving primary education and Relationships and Sex Education (RSE) compulsory for all pupils receiving secondary education. They also make Health Education compulsory in all schools except independent schools.

The aim of RSE is to give young people the information they need to help them develop healthy, nurturing relationships of all kinds, not just intimate relationships. The school's relationships and sex programme meets the needs of all young people in the school and is developmentally appropriate. Teaching is sensitive, age appropriate and delivered with reference to the law.

Effective RSE does not encourage early sexual experimentation. It should teach young people to understand human sexuality and to respect themselves and others.

The subject areas taught in both secondary and primary schools are identified below, including the subject area delivered.

RSE in Primary Schools:

PSHE Relationship and Sex Education units of work aim to give children their entitlement to information about relationships, puberty and human reproduction, appropriate to their ages and stages of development. This work is treated in a matter-of-fact and sensitive manner to allay embarrassment and fear and helps children to cope with change, including puberty and to learn about families, friendships and healthy relationships. Sex Education is not compulsory in primary schools. The National Curriculum for science includes subject content in related areas, such as the main external body parts, the human body as it grows from birth to old age (including puberty) and reproduction in some plants and animals. Each school must determine whether they should cover additional content on sex education to meet the needs of their pupils. It is the recommendation

of the DfE that all primary schools should have a sex education programme tailored to the age and physical and emotional maturity of the pupils in order to ensure that both boys and girls are prepared for the changes that adolescence brings. Schools should consult parents before the end of year 6 about the detailed content taught.

Relationship Education

Relationships Education in primary schools will cover 'Families and people who care for me', 'Caring friendships', 'Respectful relationships', 'online relationships', and 'Being safe'.

Criteria
<p>Families and people who care for me: Pupils should know...</p> <ul style="list-style-type: none"> • R1 that families are important for children growing up because they can give love, security and stability. • R2 the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives. • R3 that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care. • R4 that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up. • R5 that marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong. • R6 how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.
<p>Caring friendships: Pupils should know...</p> <ul style="list-style-type: none"> • R7 how important friendships are in making us feel happy and secure, and how people choose and make friends. • R8 the characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties. • R9 that healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded. • R10 that most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right. • R11 how to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed.
<p>Respectful relationships: Pupils should know...</p> <ul style="list-style-type: none"> • R12 the importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs. • R13 practical steps they can take in a range of different contexts to improve or support respectful relationships. • R14 the conventions of courtesy and manners. • R15 the importance of self-respect and how this links to their own happiness. • R16 that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority. • R17 about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help. • R18 what a stereotype is, and how stereotypes can be unfair, negative or destructive. • R19 the importance of permission-seeking and giving in relationships with friends, peers and adults.
<p>Online relationships: Pupils should know...</p> <ul style="list-style-type: none"> • R20 that people sometimes behave differently online, including by pretending to be someone they are not. • R21 that the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous. • R22 the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. • R23 how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met. • R24 how information and data is shared and used online.
<p>Being Safe: Pupils should know...</p> <ul style="list-style-type: none"> • R25 what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context).

- R26 about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe.
- R27 that each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.
- R28 how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know.
- R29 how to recognise and report feelings of being unsafe or feeling bad about any adult.
- R30 how to ask for advice or help for themselves or others, and to keep trying until they are heard.
- R31 how to report concerns or abuse, and the vocabulary and confidence needed to do so.
- R32 where to get advice e.g. family, school and/or other sources.

Health Education

Health Education in primary schools will cover 'Mental Wellbeing', 'Internet Safety and harms', Physical Health and fitness', Healthy Eating', 'Drugs, alcohol and tobacco', 'Health and prevention', 'Basic First Aid', 'Changing adolescent body'.

Criteria

Mental wellbeing:

Pupils should know...

- H1 that mental wellbeing is a normal part of daily life, in the same way as physical health.
- H2 that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations.
- H3 how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.
- H4 how to judge whether what they are feeling and how they are behaving is appropriate and proportionate.
- H5 the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental well-being and happiness.
- H6 simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests.
- H7 isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support.
- H8 that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being.
- H9 where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental well-being or ability to control their emotions (including issues arising online).
- H10 it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

Internet safety and harms

Pupil should know...

- H11 that for most people the internet is an integral part of life and has many benefits.
- H12 about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing.
- H13 how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private.
- H14 why social media, some computer games and online gaming, for example, are age restricted.
- H15 that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.
- H16 how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted.
- H17 where and how to report concerns and get support with issues online.

Physical health and fitness

Pupils should know...

- H18 the characteristics and mental and physical benefits of an active lifestyle.
- H19 the importance of building regular exercise into daily and weekly routines and how to achieve this; for example, walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise.
- H20 the risks associated with an inactive lifestyle (including obesity).
- H21 how and when to seek support including which adults to speak to in school if they are worried about their health.

Healthy eating

Pupils should know...

- H22 what constitutes a healthy diet (including understanding calories and other nutritional content).

<ul style="list-style-type: none"> • H23 the principles of planning and preparing a range of healthy meals. • H24 the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health).
<p>Drugs, alcohol and tobacco Pupils should know...</p> <ul style="list-style-type: none"> • H25 the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking
<p>Health and prevention Pupils should know...</p> <ul style="list-style-type: none"> • H26 how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body. • H27 about safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer. • H28 the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn. • H29 about dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist. • H30 about personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing. • H31 the facts and science relating to immunisation and vaccination
<p>Basic First Aid Pupils should know...</p> <ul style="list-style-type: none"> • H32 how to make a clear and efficient call to emergency services if necessary. • H33 concepts of basic first-aid, for example dealing with common injuries, including head injuries.
<p>Changing adolescent body Pupils should know...</p> <ul style="list-style-type: none"> • H34 key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes. • H35 about menstrual wellbeing including the key facts about the menstrual cycle.

Sex Education

The DfE Guidance 2019 (p.23) recommends that all primary schools ‘have a sex education programme tailored to the age and the physical and emotional maturity of the pupils. However, ‘Sex Education is not compulsory in primary schools’. (p. 23) Schools are to determine the content of sex education at primary school. Sex education ‘should ensure that both boys and girls are prepared for the changes that adolescence brings and – drawing on knowledge of the human life cycle set out in the national curriculum for science - how a baby is conceived and born’.

Every primary school in our Trust sets out in an appendix to this policy how they a) define Sex Education and b) intend to teach this. All schools will consult parents on their chosen approach. “Parents have the right to request that their child be withdrawn from some or all of sex education delivered as part of statutory Relationships and Sex Education” DfE Guidance p.17. Schools will inform parents of this right and how it applies to their chosen approach for teaching Sex Education.

Each year group will be taught appropriate to their age and developmental stage, building on the previous years’ learning. Children will not be taught something that is inappropriate; and if a question from a child arises and the teacher feels it would be inappropriate to answer, (for example, because of its mature or explicit nature), the child will be encouraged to ask his/her parents or carers at home. The question will not be answered to the child or class if it is outside the remit of that year group’s programme. All lessons should be taught using correct terminology, child-friendly language and diagrams.

The following is a suggested progression of content that should be taught through a structured PSHE curriculum. Please refer to the appendix of this policy for details of each school’s approach*.

Suggested Progress	Suggestions of where this could be covered *	
	Jigsaw Programme	Medway SoW (based on the PSHE Association PoS)
Ages 3 – 5 Growing up: how we have changed since we were babies	F1 & F2 Puzzle 6: Changing Me	Year 1 or 2 My Special People -identify our own special people -explain what makes them special to us and why they are important in our lives -describe the different ways our special people care for us -recognise how we can care for them in return

<p>Ages 5-6</p> <p>Boys' and girls' bodies; correct names for body parts</p>	<p>Year 1 Puzzle 6: Changing Me</p> <ul style="list-style-type: none"> -start to understand the life cycles of animals and humans -tell some things about me that have changed and some things about me that have stayed the same -tell how my body has changed since I was a baby -identify the parts of the body that make boys different to girls and can use the correct names for these: penis, testicles, vagina -understand that every time I learn something new I change a little bit -tell about changes that have happened in my life 	<p>Year 1 or 2</p> <p>We are growing: human life cycle</p> <ul style="list-style-type: none"> -recognise the main stages of the human life cycle (baby, child, adult) -recognise that the process of growing takes time and describe what changes when people grow from young to old -identify ways we are more independent now than when we were younger -describe our feelings about growing and changing
<p>Ages 6-7</p> <p>Boys' and girls' bodies; body parts and respecting privacy (which parts of the body are private and why this is)</p>	<p>Year 2 Puzzle 6: Changing Me</p> <ul style="list-style-type: none"> -recognise cycles of life in nature -tell about the natural process of growing from young to old and understand that this is not in my control -recognise how my body has changed since I was a baby and where I am on the continuum from young to old -recognise the physical differences between girls and boys and use the correct names for parts of the body (penis, testicles, vagina) and appreciate that some parts of my body are private -understand that there are different types of touch and can tell you which ones I like and don't like -identify what I am looking forward to when I am in year 3 	<p>Year 1 or 2</p> <p>Everybody's body</p> <ul style="list-style-type: none"> -describe similarities and differences between ourselves and others -challenge simple stereotypes about boys and girls -recognise and use the correct names for main parts of the body <p>Year 3</p> <p>What makes a good friend?</p> <ul style="list-style-type: none"> -recognise the different types of friendships that are important to us (eg: family, friends, groups we belong to, neighbours) -explain why friendship and having friends is valuable -identify how friends show they care for and value each other -describe what makes a good friendship and what is most important in a friendship
<p>Ages 7-8</p> <p>How babies grow and how boys' and girls' bodies change as they grow older</p> <p>Introduction to puberty and menstruation</p>	<p>Year 3 Puzzle 6: Changing Me</p> <ul style="list-style-type: none"> -understand that in animals and humans lots of changes happen between conception and growing up, and that usually it is the female who has the baby -understand how babies grow and develop in the mother's uterus -understand what a baby needs to live and grow -understand that boys' and girls' bodies need to change so that when they grow up their bodies can make babies -identify how boys' and girls' bodies change on the outside during this growing up process -identify how boys' and girls' bodies change on the inside during the growing up process and can tell you why these changes are necessary so that their bodies can make babies when they grow up 	<p>Year 3</p> <p>Falling out with friends</p> <ul style="list-style-type: none"> -identify what helps maintain friendships -describe feelings when disagreements and conflict occur -identify what can help and not help if there are friendship problems -demonstrate strategies for solving arguments with peers <p>Year 4 or 5</p> <p>Puberty: time to change</p> <ul style="list-style-type: none"> -identify some of the physical changes that happen to bodies during puberty -explain that puberty begins and ends at different times for different people -use scientific vocabulary for external male and female body parts/genitalia

	<ul style="list-style-type: none"> -start to recognise stereotypical ideas I might have about parenting and family roles -identify what I am looking forward to when I am in year 4 	
<p>Ages 8-9</p> <p>Internal and external reproductive body parts</p> <p>Recap about puberty and menstruation</p> <p>Conception explained in simple terms</p>	<p>Year 4 Puzzle 6: Changing Me</p> <ul style="list-style-type: none"> -understand that some of my personal characteristic have come from my birth parents and that this happens because I am made from the joining of their egg and sperm -correctly label the internal and external parts of male and female bodies that are necessary for making a baby -describe how a girl's body changes in order for her to be able to have babies when she is an adults and that menstruation (having periods) is a natural part of this -know how the circle of change works and can apply it to changes I want to make in my life -identify changes that have been and may continue to be outside of my control that I learnt to accept -Identify what I am looking forward to in year 5 	<p>Year 4 or 5</p> <p>Puberty: menstruation and wet dreams</p> <ul style="list-style-type: none"> -use scientific vocabulary for external and internal male and female body parts/genitalia -explain what happens during menstruation (periods) -explain what is meant by ejaculation and wet dreams <p>Year 4 or 5</p> <p>Puberty: personal hygiene</p> <ul style="list-style-type: none"> -explain how and why it is important to keep clean during puberty -describe ways of managing physical change during puberty -respond to questions and give advice to others about puberty
<p>Ages 9-10</p> <p>Puberty for boys and girls in more detail, including the social and emotional aspects of becoming an adolescent</p> <p>Conception explained in simple biological terms</p>	<p>Year 5 Puzzle 6: Changing Me</p> <ul style="list-style-type: none"> -be aware of my own self-image and how my body image fits into that -explain how a girl's body changes during puberty and understand the importance of looking after yourself physically and emotionally -describe how boys' and girls' bodies change during puberty -understand that sexual intercourse can lead to conception and that is how babies are usually made -understand that sometimes people need IVF to help them have a baby -Identify what I am looking forward to about becoming a teenager and understand this brings growing responsibilities (age of consent) -identify what I am looking forward to when I am in year 6 	<p>Year 4 or 5</p> <p>Puberty: emotions and feelings</p> <ul style="list-style-type: none"> -describe how emotions and relationships may change during puberty -know where we can get the help and support we need in relation to puberty <p>Year 6</p> <p>Puberty: recap and review</p> <ul style="list-style-type: none"> -describe the physical and emotional changes that occur during puberty and how to manage these -identify myths and facts about puberty, and what is important for a young person to know -demonstrate how to begin conversations (or ask questions) about puberty with people that can help us
<p>Ages 10-11</p> <p>Puberty for boys and girls revisited</p> <p>Understanding conception to the birth of a baby</p> <p>Becoming a teenager</p>	<p>Year 6 Puzzle 6: Changing Me</p> <ul style="list-style-type: none"> . be aware of my own self-image and how my body image fits into that -explain how girls' and boys' bodies change during puberty and understand the importance of looking after yourself physically and emotionally -be able to ask the questions I need answered about changes during puberty 	<p>Year 6</p> <p>Puberty: change and becoming independent</p> <ul style="list-style-type: none"> -describe some changes that happen as we grow up -identify the range of feelings associated with change, transition to secondary school and becoming more independent -describe practical strategies to cope with growing up, becoming more independent and taking on new responsibilities

	<p>-describe how a baby develops from conception through the nine months of pregnancy, and how it is born</p> <p>-understand how being physically attracted to someone changes the nature of the relationship</p> <p>-identify what I am looking forward to and what worries me about the transition to secondary school</p>	<p>Year 6 Positive and healthy relationships</p> <p>-describe some changes that happen as we grow up</p> <p>-identify the range of feelings associated with change, transition to secondary school and becoming more independent</p> <p>-describe practical strategies to cope with growing up, becoming more independent and taking on new responsibilities</p> <p>Year 6 How babies are made</p> <p>-identify the links between love, committed relationships / marriage and conception</p> <p>-explain what sexual intercourse is and explain that this may be one part of an intimate relationship between consenting adults</p> <p>-explain what pregnancy means, how long it lasts and where it occurs i.e.: that a baby is made when a sperm (male) meets an egg /ovum (female) and then the fertilised egg settles into the lining of the uterus (or womb) (female)</p>
--	--	---

By the end of secondary school:

Please note: the left hand column 'Criteria' shows what should be covered in each school. In the right hand column an example is shown from one of our secondary schools of how this is covered through the curriculum.

Families

Criteria	Where covered
That there are different types of committed, stable relationships	PB Year 8 'Journey of life' PB PSHE Year 8 RSE- Relationships PSHE Year 9 RSE- Relationships 'I think...' Tutor Time Year 10- Relationships
How these relationships might contribute to human happiness and their importance for bringing up children	PB Year 8 'Journey of Life' PSHE Year 8 Pregnancy PSHE Year 11 Pregnancy and Parenthood' Tutor Time Year 10 'Parenting'
What marriage is, including their legal status - for example, that marriage carries legal rights and protections not available to couples who are cohabiting or who have married, for example, in an unregistered religious ceremony	PB Year 8 'Journey of Life' Marriage, Civil Weddings, Civil Partnerships, Cohabitation Divorce
Why marriage is an important relationship choice for many couples and why it must be freely entered into.	PSHE Year 8 RSE- What is a healthy or unhealthy relationship PB Year 8 'Journey of Life' PSHE Year 8 Consent PSHE Year 9 Consent PSHE Year 10 Forced Marriage and Honour Based Violence

Sharing information with parents

Parents will be informed about Relationships and Sex Education via the Trust website. They will also be informed of their right to withdraw their child/children if they wish.

Withdrawing pupils from RSE

Parents have the right to withdraw their children from some or all of sex education delivered as part of statutory RSE (that does not form part of the National Curriculum e.g. Science), however parents cannot withdraw from Relationship Education.

Before parents decide on this option we encourage parents discussing their request with the Head Teacher, and, where appropriate, with the child to ensure their wishes are understood and to clarify the nature, purpose of the curriculum. The Head Teacher will also discuss the benefits of receiving RSE and any detrimental effects may have on the child. E.g. emotional and social exclusion.

After discussions schools should respect parents' requests to withdraw, up to three terms before the child turns 16. At this point, if the child wishes to receive SRE the school should make arrangements to provide the child with RSE during one of those terms.

Head Teachers will automatically grant a request to withdraw a pupil from any Relationships Education delivered in Primary schools, other than part of the science curriculum.

Pupils who are withdrawn will still receive appropriate and purposeful education during the period of withdrawal.

Chosen approaches for teaching Sex Education in each primary school to be completed and published on school websites.

Option 1 – teaching Sex Ed as a statutory part of Health Education (PSHE) where puberty is included

School Name: #####

At our school we believe the facts about human reproduction before they leave primary school. Sex education ‘should ensure that both boys and girls are prepared for the changes that adolescence brings (puberty) and – drawing on knowledge of the human life cycle set out in the national curriculum for science - how a baby is conceived and born’.

At our school, puberty is taught as a statutory requirement of Health Education and covered by our *(insert your programme here eg Jigsaw PSHE Programme in the ‘Changing Me’)*.

“Parents have the right to request that their child be withdrawn from some or all of sex education delivered as part of statutory Relationships and Sex Education” DfE Guidance p.17

We conclude that sex education refers to Human Reproduction, and therefore inform parents of their right to request their child be withdrawn from the PSHE lessons that explicitly teach this

(state the lessons where you will teach it)

The Jigsaw Changing Me Puzzle (unit) e.g.

Year 4, Lesson 2 (Having a baby)

Year 5, Lesson 4 (Conception)

Year 6, Lesson 3 (Conception, birth)

We will inform parents of this right by*(newsletter / letter in Spring term etc)*

Option 2 – teaching Sex Ed within the science curriculum

School Name: #####

At our school we believe the facts about human reproduction before they leave primary school. Sex education ‘should ensure that both boys and girls are prepared for the changes that adolescence brings (puberty) and – drawing on knowledge of the human life cycle set out in the national curriculum for science - how a baby is conceived and born’.

At our school, puberty is taught as a statutory requirement of Health Education and covered by our *(insert your programme here eg Jigsaw PSHE Programme in the ‘Changing Me’)*.

“Parents have the right to request that their child be withdrawn from some or all of sex education delivered as part of statutory Relationships and Sex Education” DfE Guidance p.17

We conclude from the DfE Guidance that sex education refers to Human Reproduction. In order to teach this in a scientific context, and knowing that National Curriculum Science requires children to know how mammals reproduce, we have opted to teach this within our Science curriculum, not within PSHE or Relationships and Sex Education as we believe this is most appropriate for our children.

Therefore, the parent right to withdraw their child is not applicable. We are of course happy to discuss the content of the curriculum and invite you to contact*(insert name of Head Teacher)*.
